

VVLY OHV Law Enforcement

FOR OFFICE USE ONLY:

Version # _____

APP # 700496

ITEM 1. Proposed Project

The geographic jurisdiction of the San Bernardino County Sheriff's Victor Valley Station comprises over 1,419 square miles of wide-open desert and mountain land. The greater Victor Valley region contains the largest Off Highway Vehicle (OHV) recreation areas in the continental U.S. This particular aspect draws OHV enthusiasts from the counties of San Diego, Orange, Los Angeles, Riverside as well as our own county residents and those traveling from Nevada and Arizona. The Victor Valley Station area has shown a substantial increase in recreational use over the past year. It is expected to rise over the years to come due to passing of Riverside County's and several local cities' strict OHV ordinance. An increasing area of concern is the OHV activity on private property and public roadways. Often, users of the OHV areas will stray outside the boundaries of the designated use area and commit trespassing violations. This is an ever increasing issue, as the developments come closer to open OHV areas. Additionally, local residents known as "garage riders" will ride their OHV's on or along city side streets, county roads, or across private property to get to the desert to recreate. In our area, we have documented approximately 534 law enforcement calls for service in the last year in regards to OHV activity. This does not include the 730 self initiated OHV patrols and contacts. Enforcement operations have been conducted and will be planned to contact violators and either citations will be issued or educate the public by providing information as to the legal areas open to the enthusiasts.

Our enforcement plan is to use existing grant funded equipment, purchase a 4x4 Off-Road Vehicle, as an OHV and a utility vehicle to be used for OHV patrol. The purchase of a laptop computer is to assist in coordinating patrol areas and documenting OHV activities. The first area is to continue to support the BLM and U.S. Forest Service, and other Sheriff's Stations in the Victor Valley with events and routine patrol in the OHV areas. The second area will be to conduct routine patrols in the illegal OHV areas within our desert and mountain communities. This will allow for education and enforcement related to the new County OHV ordinance. This will reduce

the calls for service related to OHV disturbances, and promote better relations between citizens and OHV enthusiasts.

Victor Valley station's OHV Team has supported and promoted legal OHV recreation within our area since the late 1990's. Our past enforcement efforts have proven successful at major events allowing OHV enthusiasts, fans, and competitors a safe environment to enjoy their sport. If OHV enthusiasts have a safe and enjoyable experience, the sports will continue to grow. We have not only partnered with other law enforcement agencies, but also with local stakeholders who have interest in legal OHV opportunities.

As the use of legal OHV areas increases, conflicts arise. Many of the conflicts between various recreation interests are due to a percentage of enthusiasts who are not aware of those sharing the use areas. The OHV team will increase its presence in use areas to educate enthusiasts about the variety of users, and the mutual respect required.

The OHV team is also heavily involved in public education. The OHV team personnel have become instructors for the ATV Safety Institute, and routinely teach ATV Safety classes at the El Mirage OHV Visitors Center. The team has their own informational flyers that direct visitors to the legal OHV opportunities in the area. The OHV team volunteers display equipment and distribute OHV information during public open house events.

Victor Valley is also tasked with law enforcement services at the Annual Adelanto Grant Prix. This event attracts 20,000 competitors and fans. In the past, theft and traffic control has been a major problem at this event. In the 4 years Victor Valley has been involved with this event, theft has gone from 17 motorcycles stolen during the evening hours, to no stolen

vehicles in 2008 during the evening hours. The OHV team has dramatically enhanced safety and security for the citizens who attend this event.

Victor Valley OHV deputies are required to by policy to attend the 40 hour POST certified Off Highway Motorcycle, and the ATV safety rider course. Deputies are also required to take a POST environmental law enforcement class. At the station level, deputies are trained to understand concerns of both enthusiasts and environmentalists by being active on message boards and the internet. The OHV team's patrol is to pursue illegal riding in the perspective communities, and Rider interests in the legal riding areas. These practices will sustain current in the future OHV recreation in Victor Valley.

ITEM 2. Project Coverage

Victor Valley station's jurisdiction contains the largest OHV areas in the United States. The Bureau of Land Management (BLM) is tasked with providing law enforcement services to these areas. The BLM currently fields three Rangers to patrol this

vast area. The Victor Valley station will continue to provide law enforcement services at the jurisdiction's OHV areas to assist the BLM rangers. This allows them to address other concerns such as wilderness intrusion, vegetation destruction, and trail

maintenance.

Two of the largest OHV areas in Victor Valley are Stoddard Valley and Johnson Valley open areas. The Stoddard Valley open area consists of 54,969 acres and plays host to 12 permitted OHV events a year, including motorcycle, truck and buggy races, four-wheel drive tours, and new product testing. The Johnson Valley open area consists of 188,374 acres and is the largest designated OHV open area known to exist. The area hosts 15 permitted events throughout the year including national series competitions to include the American Rock Crawling Association, ProRocks and CalRocks. The area is also the home of two ACEC's, one to protect the Soggy Dry Lake Creosote Rings, and one to protect the Upper Johnson Valley Yucca Rings, both vegetative assemblages.

The Victor Valley Station also assist the Bureau of Land Management (BLM) in the area of Edwards Bowl. This area covers approximately 25,000 acres. There has been a significant increase in illegal riding and land on private property in this area.

Deputies assigned to the Victor Valley OHV team assist Bureau of Land Management (BLM) and U.S. Forestry service rangers in the area of Juniper Flats/Bowen Ranch area located in the Northern foothills of the San Bernardino Mountains. The public land area covers 20,000 acres. The public route network in this area connects San Bernardino National Forest with the Victor Valley to the Northwest. Juniper Flats offers recreation opportunities for vehicle touring, camping, hiking, and horseback riding. Juniper Flats contains historic (mining) and prehistoric sites.

ITEM 3. Describe the frequency of the patrols

The 2010 Victor Valley Sheriff Station OHV patrol plan is to provide patrol in the areas of El Mirage, Stoddard Wells, Johnson Valley, and Juniper Flats. This plan includes a supervisor (Sergeant or Corporal) and three deputies using off highway vehicles to provide law enforcement coverage and to assist Bureau of Land Management in the legal off highway riding areas during busy holiday

weekends such as, Thanksgiving, New Years, President's Day and Easter. Citizens on Patrol, Reserve Deputies, and Search and Rescue team members will also assist in the patrols. Assigned deputies will assist BLM in conducting vehicle stops on violators, assisting in responding to collisions, taking criminal reports and maintaining crowd control and assisting OHV enthusiasts with typical recreational questions or problems. Simultaneously, two certified off-road motorcycle deputies will be patrolling the communities of Phelan, Pinon Hills, Oak Hills, and the unincorporated areas of Apple Valley, Hesperia,

and Victorville. Deputies will also conduct patrols of the flood control area located in the remote area of Deep Creek, Apple Valley.

Deputies will assist BLM during off-road races occurring annually in the Victor Valley OHV areas. The purpose of the patrol is not to take part in the race functions, but to assist BLM Rangers in patrolling the OHV riding and recreation areas. The rural communities of Phelan, Pinon Hills, Oak Hills, the unincorporated areas of Apple Valley, the unincorporated areas of Hesperia, and the unincorporated areas of Victorville have an extremely high volume of illegal riding calls from citizens complaining about off-road vehicle racing / riding on roadways. Often times these calls are assigned as a lowest priority call for service. Deputies do not respond to this type of call for service immediately. Deputies respond to higher priority calls for service before responding to the lower priority calls.

To alleviate this ongoing problem and reduce the reports of land trespass associated with these calls, the Victor Valley Sheriff's Station plans to assign the OHV off-road motorcycle certified deputies to these community once a month to patrol the areas, specifically targeting the illegal riding and private property land trespass calls for service.

ITEM 4. Deployment of Personnel

During the 2008 and 2009 OHV season, it was found that approximately two to three deputies on off highway vehicles and a supervisor or deputy driving a support patrol vehicle (4X4 Tahoe) were needed to patrol off highway vehicle areas of Stoddard Wells, Johnson Valley, El Mirage Dry Lake, and Juniper Flats during the major holiday weekends such as Halloween, Thanksgiving, New Years, and Presidents Day weekends. The current trend stemming from the 2009 OHV season show no apparent change in the visitation to the legal riding areas located in the Victor Valley.

A Sergeant or Corporal and three deputies are expected to be sufficient coverage for this years OHV patrol in the legal riding areas of the Victor Valley. The Victor Valley Station fortunately has significant volunteer assistance from Citizens on Patrol and Reserve Units. The Citizen volunteers (Reserve Deputies and Search and Rescue) are certified in OHV riding and aid us and the BLM for traffic control and law enforcement exposure.

As the patrols of the legal riding areas are being conducted by the deputies with a sergeant or corporal, two deputies will be assigned to float between the rural communities of Pinon Hills, Phelan, Oak Hills, unincorporated areas of Apple Valley, unincorporated areas of Hesperia, unincorporated areas of Victorville. The deputies will also patrol the flood control area located at Deep Creek, Apple Valley.

The current trend shows a significant increase in illegal riding in the rural communities located in the Victor Valley.

Deputies assigned to the OHV program will conduct/create self initiate OHV patrol calls. This will assist in combating the rise in illegal riding.

Two OHV dual sport motorcycles and deputies will be assigned at least one day a month to combat the illegal riding in these

rural communities. The communities generate the highest amount of illegal riding calls for service for the Victor Valley Station.

Two deputies will be assigned to patrol the racing events that occur at the Stoddard Wells area and the Johnson Valley off highway vehicle area. The Victor Valley Reserve Deputies and Citizen Volunteers will also assist in traffic control and law enforcement exposure. The Victor Valley Station Deputies and BLM personnel should be adequate for needed law enforcement representation during racing events.

Deputies in the Victor Valley OHV team are cross-trained in Search and Rescue. In the event of an emergency, Deputies contact and direct emergency media personnel to the scene of the accident by land or air. The OHV team is part of our station's Response Matrix. This Emergency Matrix is placed in effect in conjunction with Search and Rescue when

appropriate.

APP # 700496

Law Enforcement - Page 1

1. Identify areas with high priority law enforcement needs because of public safety, cultural resources, and sensitive environmental habitats, including wilderness areas and areas of critical environmental concerns:

The rural communities of Phelan, Pinon Hills and Oak Hills are residential areas where many calls for service are generated. The usual calls for service regard illegal riding activity on public roadways and private property land trespass incidents. The illegal activity creates a noise, public nuisance problem and reckless driving public safety concern.

The Johnson Valley off highway and Stoddard Valley area are heavily populated during large holiday weekends. OHV collisions often occur sometimes causing fatalities. Outside boundaries of the legal OHV areas are protected land which is enforced by BLM.

The El Mirage Dry Lake OHV area is another highly populated area where public safety is a concern from numerous OHV activities. The southern edge of the OHV area is bordered by the community of El Mirage. This community creates a large amount of calls for service reference illegal OHV activity.

2. Describe how the proposed Project relates to OHV Recreation and will sustain OHV Recreation, motorized off-highway access to non-motorized recreation, or OHV Opportunities associated with the Project Area:

Law enforcement provides the OHV enthusiasts the comfort in the knowledge we are there to respond to calls for service regarding illegal riding activities whether it be public roadways in Johnson Valley or Campsites in Stoddard Wells area or the El Mirage Dry Lake areas. By enforcement and education, LE keeps stability amongst the OHV community. Most enthusiasts appreciate that LE is actively participating in OHV recreation. By actively patrolling public roadways in the rural communities of the Victor Valley, LE is able to curb illegal activity by keeping illegal riding off the public roadways that allow access to private property. Many burglaries occur from illegal riders using public roadways to gain access to private property. LE presence also increases public safety by removing reckless OHV activity from public roadways.

3. Describe the Applicant's formal or informal cooperation with other law enforcement agencies:

The Victor Valley Station's OHV team works in harmony with the Barstow BLM Rangers. The BLM is highly understaffed and burdened to patrol the El Mirage Dry Lake area, Johnson Valley OHV area, Stoddard Wells area, and Juniper Flats alone, especially on holiday weekends. Our two agencies work well together, responding to calls for service regarding OHV activity and criminal elements. The BLM is also tasked by patrolling protected lands from straying OHV activity. Our OHV patrol assistance on BLM land provides the BLM more opportunities to patrol the protected lands.

The Victor Valley OHV team also provides assistance patrolling the U.S. Forestry trails located in the area of Juniper Flats/Bowen Ranch and The Baldy Mesa Trail located along the southern edge of Phelan and Pinon Hills communities.

The Victor Valley OHV team also provides needed assistance to the Adelanto Police Department for OHV patrol during the weekend long race known as the Adelanto Grand Prix. The Adelanto Police Department does not ha

Law Enforcement - Page 2

4. Does the Applicant recover a portion of the law enforcement costs directly associated with privately sponsored OHV events where sponsors have obtained a local permit?
(Please select Yes or No)

☐ Yes

☒ No

Explain

The 2010 Adelanto Grand Prix patrol has been at the expense of the Victor Valley Station OHV program. The Victor Valley Station utilized a command post trailer, three quads, three dual sport motorcycles and a support patrol vehicle to conduct routine patrols. These patrol areas are very instrumental in preventing vehicle thefts during the event.

5. The Applicant agrees to implement a public education program that includes information on safety programs available in the area and how to report OHV violations? (Please select Yes or No) ☒ Yes ☐ No

6. Describe the Applicant's OHV law enforcement training program including how the training program educates personnel to address OHV safety and natural and cultural resource protection:

All Victor Valley Station OHV Team personnel have been certified by a certified quad instructor. Six of our station deputies have been certified in a forty-hour off-road motorcycle course by the Department's Emergency Vehicle Operations Center Instructors. The Victor Valley Station Team recognizes the importance of enforcing the law and educating enthusiasts about the law. We recognize the principles of the "letter of the law" and "spirit of the law". Our number one priority is to ensure public safety. We believe in public service and maintaining a good relationship with the OHV community wherever we patrol. Each member of the Victor Valley OHV Team understands this principle.

Law Enforcement - Page 3

7. Is the proposed project in accordance with local or federal plans and the OHMVR Division Strategic Plan? (Please select Yes or No) ☒ Yes ☐ No

8. LOCAL AGENCIES ONLY - Describe the Applicant's policies and/or agreements regarding enforcement on federal land:

The Victor Valley OHV team assists BLM and USFS in regards to land intrusions. The OHV team provides primary law enforcement presence at the request of BLM. The Victor Valley OHV team uses state and county codes as primary enforcement codes during off highway vehicle enforcement in the BLM or USFS lands.

9. COUNTIES ONLY - Describe how the OHV in-lieu of tax funds are being used and whether the use of these fees complements the Applicant's project:

The Victor Valley Station was advised that the OHV in-lieu of tax funds are currently being used by San Bernardino County Parks and Recreation. The funds are being used to create, operate, and maintain the OHV trails in Park Moabi located in Needles, California. The funds are also used to operate and maintain the OHV trails surrounding Calico Ghost Town located in Yermo, California.

Law Enforcement - Page 4

10. APPLICANTS WHO MANAGE OHV RECREATION FACILITIES – Describe how your organization is meeting its operation and maintenance needs:

This question does not apply the San Bernardino County Sheriff's Department, Victor Valley OHV program.

11. The Applicant agrees to enforce the registration of OHVs and the other provision of Division 16.5 commencing with Section 38000 of the vehicle code and to enforce other applicable laws regarding the operation of OHVs? (Please select Yes or No) ☒ Yes ☐ No
